Information Sheet

International Roaming

Information about the service

Here's a quick summary of all the important bits about your **International Roaming** availability and charges for the Mobile Broadband Plans and Mobile Plans.

International Roaming charges apply to your post-paid mobile phone service when you use it in other countries. It gives your mobile phone number access to international mobile networks and let you make and receive calls, send and receive SMS/MMS, and access mobile data (if available).

How to activate International Roaming

In default, International Roaming is not active. Before going overseas, please contact **Olightech Telco** to activate the feature.

International Roaming can be deactivated at any time at no extra cost. To avoid extra charges while overseas, most devices offer the capability of blocking International Roaming usage.

How it works?

International Roaming charges apply to both originated and received calls, and originated SMS and MMS. Data upload and download are also charged, including data consumed to send and receive MMS.
